## COURSE

### AITech Academy

- Completed MERN Stack Development course , gaining hands-on experience in building full-stack web applications.
- Skilled in developing responsive, dynamic, and scalable solutions using MongoDB, Express.js, React.js, and Node.js.

## PROFILE SUMMARY

Detailed-oriented MERN Stack Developer with hands-on experience in building scalable web applications using React, Node.js, Express, and MongoDB. Strong understanding of REST APIs, authentication, and CRUD operations. Passionate about writing clean code and creating user-friendly interfaces

## PROJECTS

### Past Food Ordering Website

- Developed a responsive food ordering web application using HTML, CSS, and Bootstrap.
- Designed interactive UI components to enhance user experience.
- Implemented mobile-friendly layouts for cross-device compatibility.
- Structured pages for menu listing, product view, and order flow.

### Online Earring Store

- Built a scalable e-commerce application using MongoDB, Express.js, React, and Node.js.
- Created reusable UI components such as product cards, banners, and category pages.
- Implemented backend APIs for product management and data handling.
- Connected frontend with REST APIs for dynamic data rendering.

### Skincare E-Commerce Website

- Developed a full-stack beauty product e-commerce platform using the MERN stack.
- Designed clean and modern interfaces for better usability.
- Integrated backend services using Node.js and Express.js.
- Managed product data with MongoDB including CRUD operations.
